To: Ms. Melissa Smith
U.S. Environmental Protection Agency
Compliance Assurance and Enforcement Division
Hazardous Waste Enforcement Branch
Corrective Action and Compliance Inspection Section (6EN-HC)

Re: Request for Information Pursuant to Section 3007 of RCRA Regarding Waste(s) sent to
U.S. Oil Recovery and/or MCC Recycling in Pasadena, Texas.

Ms. Smith:

Rescar (EPA/State ID #'s TXD000835215 Rescar Orange, TX. and TXD070880133 Rescar Channelview, TX.), are rail tank car maintenance facilities. We provide repairs, painting, and cleaning services for a variety of customer owned or leased railcars.

Rescar is fully committed to assist and provide the information requested in the letter dated January 4, 2011 in regards to all material(s) sent for treatment to the aforementioned facilities(s).

Please see the enclosed spreadsheets and signed Enclosure A, Statement of Certification with the information requested for both our Channelview and Orange, Texas facilities. The material sent for treatment to U.S. Oil Recycling was non-hazardous wash/rinse waters from cleaning the interiors of RCRA empty railcars. From our records, Rescar has NOT had material sent to MCC Recycling. The spreadsheets cover from January 1, 2009, to June 30, 2010. The only other company to handle this material, non-hazardous wash/rinse waters, in the last three years was Liquid Environmental Services. Their address is 250 Gellhorn Drive, Houston, TX. 77013 (713) 671-4800.

Sincerely,

Kevin A. Wilck
VP
